About Superior Sheds

Superior Sheds aim to give our clients a simple and cost effective experience when trying to find the right shed for their backyard, farm or even commercial property.

Sheds come in all sizes and styles to suit your needs. With all of our years of experience in the industry the team at Superior Sheds have taken the hard work out of finding your shed for you with our "Superior Savings Catalogue."

Superior Sheds have a huge range of sheds, garages, farm sheds, American barns, commercial or industrial buildings that you can buy straight off the grid when you enquire online. We have compiled a list of our most popular buildings with one thing in mind and that is to save you money.

When you order from our "Superior Savings Catalogue" you can save up to 10% off our retail price. Our "Superior Savings Catalogue" is definitely worth a look.

Superior Sheds strive to stay competitive in the shed industry so if you are shopping around and happen to find a price that beats ours, we will do our very best to match or beat any genuine quote that comes across our table.

Garages

Farm Sheds

Workshops

Barns

Industrial

At Superior Sheds we pass on our buying power to YOU on a wide range of sheds including

- GARAGES
- WORKSHOPS
- BARNs
- INDUSTRIAL
- HORSE ARENAS
- FARM SOLUTIONS

We also provide a full design service for clients that want a custom design shed. We make the process of buying a shed as simple as possible saving you both time and money. Superior Sheds provide you with a full set of engineering plans and a reliable team that can get your new shed built as quick as possible.

New Colours

With the COLOURMASTER range of colours you can match your shed or kit home to the surroundings of your property. The colour range has been inspired by the Australian landscape with modern tones of greens, along with the coastal influences of blue and sandy tones.

Garages

FROM WORK SPACES TO MAN CAVES, SUPERIOR SHEDS HAVE GOT YOU COVERED!

Our backyard series gives you all sorts of set design and sizes from 3m to 7m wide and heights that range from 2.4m to 3.6m high.

Add a roller door, a PA door, windows, or insulation to suit your needs, or contact one of our shed specialists if you need some advice.

Our backyard series is available in the COLORMASTER range and comes with a 15 year warranty so you have peace of mind when you make your purchase from Superior Sheds. Our simple design makes the construction of our kits a simple task for the home handy man or a group of mates that owe you a favour. If you don't have time to build then we can supply you with a team to build it for you.

All our sheds come with a full set of engineering plans that are ready to take to council for the approval process. We also offer a full shire approval service for a very low fee to help get your next building approved fast and efficiently. We all know that getting shire approvals can take up time and be a nightmare if you don't know what you are doing, so we are here to help you every step of the way.

SUPERIOR \$SAVINGS\$ Catalogue

Options TO SUIT YOU!

All standard Superior Savings sheds can be customised to suit your needs with ease, by adding, removing or altering various options

PA DOORS

A PA door (Personal Access Door) is a very common option that gets used in a lot of sheds. Ask one of our sales staff about our PA Doors options.

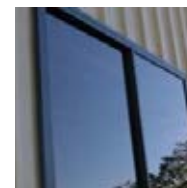

INSULATION

There are different types of insulation for different jobs, make sure to keep your shed cool in summer and warm in the winter. Ask one of our sales staff about our insulation options.

ROLLER DOORS

Roller doors are used in just about every shed, they are used for gaining access with or without a remote control motor for ease and convenience of access. Ask one of our sales staff about our roller door options.

WINDOWS

Our windows come in a few shapes and sizes and also have the option of fly screens and security grills, we can help you find the best options for your next shed. Ask one of our sales staff about our window options.

With the COLOURMASTER range of colours you can match your shed or kit home to the surroundings of your property. The colour range has been inspired by the Australian landscape with modern tones of greens, along with the coastal influences of blue and sandy tones.

RAISING THE BAR WITH OUR ALL IN ONE COLLATION AND DELIVERY SERVICE

UNLIKE SOME OF OUR COMPETITION IN THE SHED INDUSTRY, WE DELIVER ALL THE PARTS REQUIRED TO YOUR DOOR STEP IN ONE HIT.

We have carefully thought the entire process through, making purchasing a Superior Shed easy and hassle free. From enquiry, to shed approvals, purchase to manufacture, and finally delivery to site. We also provide you a list of our most reputable contractors to complete the final stage of the process.

Our manufacturer has a full time team dedicated to logistics, ensuring that your order is carefully collated, and checked part for part prior to delivery to ensure all required parts are supplied for a quick and hassle free build time.

Every client is important to us, so we have taken every measure to stream line build time and efficiency.

Superior Service. Superior Quality.

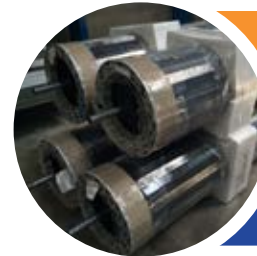

Superior Logistics

With a trucking fleet that can service just about anywhere in the state you can be sure that we will get your Superior Shed to your site in one delivery.

Order Consolidation

All of the steel components are strapped together in bundles that are easy to offload at the final destination making it easier to move into position on site.

Superior Quality Control

Our roller doors are delivered to you with a protective padding to protect them during the transportation process. Ensuring that we keep all of your gear together and no damage when it arrives to site.

Client Assurance

We can provide our clients with photos of all goods that will be delivered to site so all our clients can have peace of mind that their new shed is ready and waiting to be delivered.

superiorsheds.com.au

Structural Steel

For our larger custom made sheds our Universal Beam range starts from 12m to 30m spans with design and engineering developed by a leading team of engineers that specialise in the shed industry.

Our shed system has less moving parts because we weld as much as possible to the shed to cut construction time in half and increase the strength. Every component is checked before it leaves our warehouse to ensure that you are getting Superior quality that our name stands for.

The fully welded system makes this design stronger than ANY C section shed on the market.

From the ground up our base plates are made using flat steel from 16-20mm in thickness, this same method is also applied to the knee or haunch connections and the apex connection in the roof.

Our Superior Commercial series is for customers with a seriously big purpose built project or warehousing of industrial/mining equipment.

With the use of heavy duty Universal Beams along with Superior engineering techniques we can deliver huge steel buildings with huge cost savings when compared to other conventional steel buildings.

These buildings have the capabilities to support cranes and other loadings for industrial uses, with turnaround times of approx. 2-3 months this process is designed to keep your project on time every time. Our manufacturing plants are able to produce high volume, and second to none workmanship with a series of QA checks throughout the entire manufacturing process. We stand behind our name and make it our mission to deliver the Superior Quality and Superior Service that you deserve.
